SCHEDULE OF HOME RENOVATION EXPENSES

Complete this schedule if you have made improvements to your house, condo or cottage after January 27, 2009 and before February 1, 2010. Only those expenses that relate to personal use are eligible (i.e. do not include expenses incurred and related to rental and/or business use).

Goods acquired during the eligible period will qualify even if they have not been installed by February 1, 2010.

Where work has been paid for prior to February 1, 2010, but only partially completed by that date, only the portion of the work that is complete will qualify for the credit.

Please provide us with scanned copies of your receipts (or photocopies where scanning is not available). We do not require original copies.

Description of expense	Date on contract or receipt	Supplier or contractor name	GST/HST number of supplier (if applicable)	Was labour included in the expense?	Amount paid including all applicable taxes
